Pre-required materials for the ep2 VM approval

Following **deliverables** are needed before starting with the vending machine approval:

1. complete VM approval questionnaire
2. ep2 developing license (order of ep2 CAT specification)
3. signed terms and conditions (AGB's) of eftpos Engineering GmbH

Time for Registration

The request for vending machine conformity tests must be applied at least two months in advance by using the registration form published on the ep2 webpage. This is necessary to ensure the availability of the vending machine conformity approval team on the ep2 certification authority as well as on the acquirer side (VMAC).

Terms of Cancellation

Cancellations made less than 2 weeks before registered start date, will be charged with the full price and the terminal supplier has to apply for a re-approval.
